In 1929, at the III All-Union Congress of the IOAFR (International Organization for Assistance to Fighters of the Revolution), it was decided to build the first international orphanage in Ivanovo-Voznesensk for children of anti-fascists, political prisoners and those whose parents were repressed in their homeland due to political views.

On 1 may, 1933 the construction was completed.
On 7 june, 1933 140 children of 26 nationalities were admitted to the orphanage.

The First International Orphanage - Interdom - was named after Elena Dmitrievna Stasova, the long-time head of the IOAFR

In the life of the Interdom, as if in a mirror, reflected all the events of the twentieth century, starting from the 30s: the struggle for the liberation of Spain, Greece, Portugal, China, Angola, Iran, Chile, Guinea-Bissau, etc.

Over the 90 years of existence of the Interdom has educated more than 4 thousand children from 85 countries.

INTERDOM AND THE PEOPLE'S REPUBLIC OF CHINA ARE CONNECTED BY ALMOST 90 YEARS OF HISTORY

Since 1933, a total of 115 children from China have been enrolled in our School. These included the children of prominent figures in the Chinese Communist movement (Marshal Zhu De, Liu Shaoqi, Lin Bao, and Guo Leng) as well as children who had lost their parents. The Interdom has become a second home for all these children. Graduates of different generations who attended this institution remember it with great fondness.

Chinese graduates met with their Interdom in the 90th anniversary of School in 2023.

THE INTERDOME MISSION

- The Interdom today is a large and modern school with more than 300 students. Since 2021, the international mission of the Interdome has been revived. The institution trains groups of pupils from the Syrian Arab Republic and the Kyrgyz Republic on short-term programs of linguistic and cultural orientation.
- Cooperation with the People's Republic of China is progressing actively.
- Relations with Belarus are being established on a new foundation.

THE PROGRAM OF LINGUISTIC AND REGIONAL STUDIES

- Currently, Interdom is offering linguistic and regional study programs for the learning of the Russian language, subjects in Russian, and an introduction to the customs and traditions of Russia.
- Thanks to the active and engaged participation of all teachers, students have managed to master the elementary-level program of studying various subjects in Russian in a short period of time.

THE PROGRAM OF LINGUISTIC AND REGIONAL STUDIES

- The methodology for teaching the Russian language as a foreign language and other school subjects in Russian has been consistently developed at Interdom - a school that was established for children from various countries around the world.
- Today, Interdom is steadily regaining its position as a school that educates children not only in the Russian language, but also as a foreign language.

THE PROGRAM OF LINGUISTIC AND REGIONAL STUDIES

- The proficiency in a number of subjects is provided for foreign students through classes in sports sections, creative studios, and children's clubs.
- Children from diverse cultural and national backgrounds learn to understand and appreciate each other, to respect and value the interests of others, and to explore and discover new countries and traditions.
